BREWSTER, of Twenty-Bith street. Warerooms, Finh avenue, corner Twenty-seventh street.

Sole makers of Wagons with the VERTICAL STEEL PLATES. The maximum of strength, the minimum of weight, obviating all spread of the axle, a prevailing source of annoyance to these using road wagons. Besides the additional strength and security which this great improvement gives to our wagons, an experience of thirty-four years enables us to challenge comparison either in quality of finish.

See certificate from General Metholian:—

New York, June 1, 1871.

GENTLEMEN:—
I have carefully examined your Patent Vertical Steal
Plate Axic. I find that the addition of the Vertical Plate
renders the axic about two and a half (2½) times as sift
as it would be without it.

Very respectfully,

GEORGE B. McCLELLAN.
